

EIKI I-Kit One (IK-1)

The first ever interactive
pocket size board.

Do you want an interactive presentation, but
you can't afford an interactive white board ?

With EIKI I-K1 we are offering you the same functions with 1/3 of the price!

EIKI I-K1 turns every presentation surface in to a interactive board in 2 minutes.

IK-1 in a nutshell

- **Underline, paint, draw or write**

Its software offers you a wide spectrum of practical and creative features.

- **Small – Light - Mobile**

Its hardly bigger then a standard size postcard and weighs approximately 200 grams – you can put your interactive white board in a hand bag.

- **Any screen, black board, white wall or display...**

Every presentation surface will turn into a interactive board. Your desktop PC or laptop with the I-kit1 should be connected to a picture producing device (for instance projector or monitor) of any brand.

- **Its action ready in 2 minutes**

An installation guide helps the technicaly non-skilled user to set up the I-kit and use all its functions.
